Education

INSEAD France
Ph.D. in Management (Department: Decision Sciences) 09/2023 - Present
Advisors: Spyros Zoumpoulis, and Georgina Hall

The Chinese University of Hong Kong, Shenzhen China
B.Eng (Honors), Computer Science and Engineering 09/2018 - 06/2022

Work in Progress

- Outcome-Aware Market Segmentation - with Spyros Zoumpoulis, Georgina Hall, Sandeep Chandukala, and Ernst Osinga.
- A Human-AI Collaborative Framework for Theory Building in Management Research - with Spyros Zoumpoulis, Phanish Puranam, Eric Uhlmann, and Philip Parker. Presented at:
  - AI Plus Management Doctoral Consortium, London UK, 2025 - link
  - (Upcoming) INFORMS Annual Meeting, Atlanta USA, 2025 - link

Selected Awards

Stars of Tomorrow (Award of Excellent Intern), Microsoft Research Asia	2022
Google Research, ExploreCSR Computing Research Award, $2,000 [link]	2021
China National Encouragement Scholarship	2019

Professional Experiences

Beijing Academy of Artificial Intelligence Beijing
Reinforcement Learning Engineer 12/2022 - 07/2023
- Developed intelligent agents learning from observations in video games, such as MineCraft, via deep reinforcement learning
- Contributed to the experimentation part of an RL-friendly vision language model for video games

Inspir.ai Beijing
Reinforcement Learning Engineer 06/2022 - 12/2022
- Designed and developed intelligent agents in FPS games, via deep reinforcement learning

Internship Experiences

Microsoft Research Asia Beijing
Research Intern, Awarded Stars of Tomorrow (Award of Excellent Intern) 01/2022 - 06/2022
- Model compression algorithms on Transformer/BERT

SenseTime (OpenDI Lab) Shenzhen
Reinforcement Learning Engineering Intern 08/2021 - 12/2021
- Contributed to the open-sourced github project Decision Intelligence Engine

ByteDance Technology Beijing
Machine Learning Algorithms Intern 12/2020 - 05/2021
- Utilized XGBoost model for video classification and released a model for video content checking.

Academic Services

Session Chair, INFORMS Annual Meeting
Session Title: Estimation and Optimization in Data-Driven Decisions 2025

Reviewer, NeurIPS (Top-tier conference in CS/ML/AI) 2024

Contributions to Open-Sourced Community

- During my internship at **Microsoft Research Asia**, I participated in the development of Microsoft's AutoML toolkit NNI (Neural Network Intelligence, over 14,000 stars in GitHub), aiding in the enhancement of features such as model compression for transformer.
- During my internship at **SenseTime** (OpenDI Lab), I made contributions to Decision AI Engine (DI-engine, over 3,000 stars in GitHub), writing over 1600 lines of code. This project is an intelligence decision engine that supports a variety of deep reinforcement learning algorithms.

Teaching Assistant Experiences

INSEAD
Probability and Statistics, PhD Course 2024.10 - 2024.12
FAIM - Foundations of AI for Managers, MBA Course 2025.01 - 2025.02
FAIM - Foundations of AI for Managers, MBA Course 2025.05 - 2025.06

The Chinese University of Hong Kong, Shenzhen
MAT1010 Calculus I Fall 2019-2020

Patents

- Resume big data-based personnel appoint and removal auxiliary decision-making method and system. China Patent CN113673943A.
